The Honorable,

The Secretary of the Interior.

Sir:

On July 13, 14 and 15, 1909, I recommended the restoration of certain lands included in Power-Site Withdrawals Nos. 9 and 10, it having appeared from field examination that, while all the lands were located along stretches of rivers where there is power, the location and extent of private lands are such that the United States cannot control the whole of the possible sites and flowage areas.

It appearing desirable, for the purpose of beneficial regulation, to withhold tracts so situated, I desire to withdraw my recommendations of Restorations of July 13, 14, and 15, and to this end make the following recommendation:

In aid of proposed legislation affecting the disposal of water-power sites on the public domain, all public lands in the following list are temporarily withdrawn from all forms of entry, selection, disposal, settlement, or location, and all existing claims, filings, and entries are temporarily suspended. All valid entries heretofore made may proceed up to and including the submission of final proof, but no purchase money will be received or final certificate of entry issued until further orders.

To correct this error I recommend that in Temporary Power Site Withdrawal No. 99, the word "Colorado" be changed to "Arizona."
